

ENVISION + COMPASS®

Envision Compass® makes it easier for everyone to reach their goals with premium networked fitness solutions, experience, and engagement. TRUE's upgraded console software and cloud service benefits the club/facility, trainers and users by providing the tools to evaluate facility, member, and trainer experiences through seamlessly combining, syncing and visualizing real time information and analytics. Facilities have access to data for state-of-the-art Asset Management. Users can track their complete workout history. Information gathered by Compass® is available via facility and user specific portals on the TRUE Compass cloud for review or download. Access to the TRUE Compass facility cloud management portal is free of charge for first four years of service.

FEATURES

+ Apple Watch Compatibility

Users can connect automatically to TRUE equipment and track heart rate, speed, calories, and other important data.

+ Customization

Customize the homescreen to promote your brand and deliver messages to exercisers, promote events and classes and build your facility brand.

+ App Connectivity

Compatible with Apple® and Android™ devices. Workout data can be pushed to exercisers' favorite fitness apps via GymTrackr.

+ Bluetooth Compatible

Syncs with Bluetooth® headphones and heart rate monitors. Polar® device compatible.

+ Entertainment

Mirroring capability allows the user to mirror content from their personal devices directly onto the console for a premium level of entertainment and viewing (Apple® & Android compatible). Users also have easy access to web content, social media, and entertainment destinations directly on the console.

+ Explore The World

Outside Interactive® courses allows exercisers to travel the world to famous locations and race courses. In addition, connecting to the Zwift® app allows exercisers to combine social running with videos of running routes.

+ Built-In Workout Programs

Exercisers can choose from a variety of programs to meet their fitness and training goals. Quick access buttons allow users to easily change speed and incline, allowing quick and easy interval changes for HIIT workouts.

+ HDMI port allows mirroring capability

+ Upgraded Option includes HDMI Cables

compass

A REVOLUTIONARY APPROACH TO MEMBER ACTIVATION & ASSET MANAGEMENT

COMPASS® helps you get the very best from your TRUE equipment. Our upgraded software benefits you, your trainers, and exercisers.

+ Preventative Maintenance

+ Tasks And Reminders

+ Equipment Usage Reports

+ User Workout History, Interactive Calendar, and Goals Page

+ Asset Management

Use the visual dashboard to combine, sync and visualize real-time data and analytics, for easy monitoring of the use and health of each machine.

+ Trainer Engagement

Compass® helps trainers engage with exercisers, providing tools and technology to help members reach their fitness goals and ensure their continued loyalty to your facility.

+ Member Engagement

The Compass® console, dashboard, and online site work together to deliver a complete and connected fitness experience for your members by providing the tools and data to help them reach their fitness goals.
