

# HIP THRUST

## PLS-0700

Built for targeted glute activation and lower body strength, the Palladium Series Plate Loaded PLS-0700 Hip Thrust offers a low-profile design with easy access and an oversized, non-skid foot platform for added exercise variety. Curved lumbar pads provide crucial support, promoting proper alignment and full hip extension, while the dual-position padded belt ensures a secure and comfortable fit for users of all sizes.

### FEATURES

- Low profile and easy entry/exit design features oversized foot platform with non-skid surface for exercise variation.
- Curved lumbar pads provide support, encourage proper alignment, and allow for maximum hip extension.
- Dual position belt accommodates wide range of users and is padded for additional comfort.

### USER AMENITIES

- (2) Weight Storage Posts
- Band peg provision
- Instruction Placard illustrates proper START and END positions
